Another Win

From Granum

Score 10 to 0

The Granum ball team arrived here Tuesday evening to play their last game with Claresholm. Owing to E. A. Brown having an injured knee and the absence of Noble and Allen, and Pirtle's refusal to play, several changes had to be made. The team manager was called in, one right field and placed on 1st base. North, H. E. Moffatt, and A. Amundson played the out field. Burton was in the box, with Ross behind the bat. The other players were in their usual places.

In one game this season did the home team put up such good ball. Not an error was made during the whole game. Burton did a creditable job in his first effort at the box. The visitors made many errors which accounted for several of the runs made by the home team.

At no time were they near scoring except in the last inning when a nice double play shut off the men at 3rd and 2nd. The score was 10 to 0.

This was the only shut out game played by the home team.

The Granum team, although they were playing a losing game, deserve great credit for the way they stay with it, for at no point in the game did they show a tendency to play in a careless way. They were a gang bunch of ball tossers to the finish.

Garmangay.

On Tuesday, July 21st, a surprise picnic was held at Mr. and Mrs. J. Howard Badin's homestead, on the Little Box. Proceedings opened with mixed bathing and many and varied were the costumes worn. Afterwards a sumptuous cold collation was partaken of and then lawn tennis over the barbed wire fence was the order of the day. At five

o'clock the party repaired again to the river bank. In equipping for the picnic, Badin, his son, and his son's wife, were observed beating for the river with one of the ladies holding curtains on her "poker". During the afternoon some of the party wandered along the bank of the river and gathered wild gooseberries and strawberries, etc. Supper was served in the evening and having eaten our fill of the game, we made our way in a big wagon, the said agreed that a very pleasant day had been spent. Among those present were Mrs. W. H. Madden, Miss Alystra and Master Sydney Madden, Mr. Philip Coulter, Mr. and Mrs. W. F. Simmons, Miss Simmons and Miss Ethelina Knight.

Communication.

The following letter was received by the Council a few days ago and we have been asked to publish it.

Edmonton, July 21, 1908.

Dear Sirs:

I take the liberty of calling your attention to the slaughter of wild ducks, which takes place every year on the first day of the open season.

On this day many of the sportsmen or pothunters, as the case may be, endeavor to kill as many birds as possible, be they young or old, male or female, or both.

In too many cases after having killed all they possibly can, the hunters pick out the larger birds leaving the smaller ones to rot.

Many instances have occurred where the hunters have allowed dogs to pursue and destroy small ducks unable to fly.

It is my opinion that such games may be greatly lessened not to declare a civil holiday during the last week in August. This will prevent a great many persons devoting more than a few hours each morning and evening to hunting and consequently reduce the slaughter proportionately.

In the interests of the protection of game I respectfully submit the

above for your consideration.

I am, gentlemen,
your obedient servant,

BENJ. LAWRENCE

Chief Game Guardian.

Fire Engines Tested.

On Monday evening an attempt was made to test the new Chemical Fire Engines. A large pile of logs, straw, paper and other inflammable articles were gathered together on the ground and set on fire. The pile was then soaked with several pails of coal oil. The fire was started and after it was well advanced and the whole pile was burning, the engines were put to work to put it out. Owing to one of the engines not putting together right it refused to work. The other one however worked well-fortunately and after forty-five minutes had the fire under control.

On Tuesday the second engine was put in proper shape and a test was made that evening which proved much more satisfactory.

The same preparations were made and the fire started in the same way.

When the signal was given for the approach of the drivers, together with the bugle, a roar of drums.

The engine pile was a mass of flames.

The drivers did quick work of it and in a very few seconds had the fire under control.

Japanese Lawn Party.

Claresholm. Ladies Lawn Party.

A pleasant Japanese Lawn party was given last Friday evening by Miss Ethel Fink of 2023 Gardner Avenue and Miss Stephan of 2023 Gardner Avenue. The affair was in honor of a sister of Miss Stephan, Mrs. E. L. O'Malley of Colorado Springs, and Miss Marie Burdine of 1005 10th Street, Claresholm, Alberta, who is a guest of Miss Fink.

Among those present was Mrs. J. E. Reynolds of Claresholm, Alberta. -Saskatoon Evening Chronicle.

During the testing of the chemical

fires engines on Monday evening the

spirit of the knocker seemed to be

present in my small degree. There

were some present, and their man-

ner was not very smart who seemed

to wish to see the test prove a failure

and when one of the engines refused

to work they did not stop to think

that it might have been a simple

mistake of the man who put the

machine together in not getting the

parts in place correctly, or that it

was possible for anything to go

wrong but immediately condemned

the whole thing as being no good.

There was not a man in the crowd

perhaps who did not think that the

Knock did the right thing when

they ordered these engines, yet now

that they are here some men show

by their actions that they

would like to see the knock in the

embarrassing position of having pur-

chased something that was no use.

This is not the first time that this

Knocking spirit has made itself evi-

dent. It is to be seen whenever the
council or school board undertakes
anything new. The council has
been knocked for what they have
done with respects to the water-
works. Supposing a mistake has
been made, are the council shown to
blame? The by law which gave the
council authority to do this work
was, if we remember right, carried
without a dissenting vote and every
voter knew exactly what was to be done
with the money. These knockers
did not have a word to say then.

Let us quit this knocking and do a
little more boasting. Help the
council rather than hinder it in its
work. Mistakes have been made
but let us point by them and not re-
peat them in another and more in-
juries way. The best thing to do
now is to put together and remedy
these mistakes as best we can.

Honest criticism of the actions of
the council is a good thing. It will
keep the members alive to the duties
entrusted to them by the citizens of
the town. Criticise but kindly, so as
not to hurt the feelings of the coun-
councilors but we should not care for that. They are public servants and as
such, must stand to be critized.

But knocking and criticism are
altogether different. The one hind-
ers progress, the other if given in
the right time and place helps to
move things along in the right direc-
tion.

If the C.P.R. would have the grass

and weeds on their right of way in-
between the track and Railway street

cut and destroyed it would very

much improve the look of things.

Did the person who set fire to the
pile of boxes on the street Monday
evening, long before the engines
were ready to think he was doing
something smart?

Stop knocking and do a little more
boasting.

The dog catcher is on the war
path. If he would destroy about
90 per cent of these nightly pests the
people would all feel deeply grateful
to him.

NO ELECTIONS THIS YEAR

Montreal, July 24.— Premier Ruth-
enfeld stated last night that the
Alberta provincial elections would not
be brought on this year, in spite of
anything that might occur in the
coming elections in Saskatchewan. He
could not state whether there would
be a redistribution bill at the next
session of the Alberta legislature.

Date of Elections

In Saskatchewan.

Regina, July 31.— The first legislative
assembly of the Province of Saskatchewan
was dissolved yesterday and the
members adjourned for a week-end.
The legislature will meet again on
Friday, August 7, and polling one
week later on August 11. The reason
for dissolution at this time is to give
the earliest possible start to the new
distribution, increasing the membership
in the legislature from 25 to
41.

Macleod Lawyer

Loses His Gown

Among the judgments which
were handed out by the Supreme
Court on hand at its recent session in
Calgary was one of somewhat local
interest.

Judgment was rendered by the
Chief Justice and concurred in by
all four, striking the name of Jos-
ephine Hicks from the roll of the law
society. This was a reference
to the court on hand by the law
society, charging Joseph Hicks with
retaining money belonging to a
client. Before judgment was read,
Hicks appealed for a stay of judge-
ment on the ground that he did not
know the case was coming up. He
had been summoned to appear in the
court but had not done so.

The C.P.R. would have the grass
and weeds on their right of way in-
between the track and Railway street

cut and destroyed it would very

much improve the look of things.

Heading off a Risk

Gas is liable to puff out
of the front door of any
furnace unprovided for
gas escape.

"Sunshine" Gas Furnace has
a special Gas Damper directly
connected with smoke-pipe. Gas pressure
avoids the possibility of gas
escaping from the pipe to escape chimney
(see illustration), but heat
cannot escape.

What does "Sunshine" Gas Damper mean to
"Sunshine" furnace?

Means protection to the
furnace parts against evil
influence of gas.

What does "Sunshine" Gas Damper mean to "Sunshine" account?

It means, instead of owner of "ordinary furnace" having to keep

check-draft indefinitely closed to "let off" gas—when there's a two-thirds

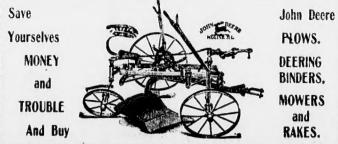

part of gas-energy to one part of gas passing up chimney—draft can with

an air valve be opened, and coal saved for another day's duty.

Harold Nelson
Is Coming

Mr. Bowen, Manager of the L. O. O. F. Hall has received word that the Harold Nelson Company will play here next Tuesday evening, Aug. 11th. This company is considered one of the best on the road. They have been playing for the last two years in the U.S. They will play in Calgary to crowded houses every night. Any one who neglects to hear them will miss a treat.

A lawyer tells of a trial in a court of that city, wherein an Irishman named Casey was obliged to give certain testimony against the defendant, a friend of his.

Casey's ordinarily rich brogue had lately been rendered more than usually hoarse by reason of an accident to which he feelingly referred in the course of his testimony.

Now, Casey had frequently been called upon to repeat his answers—evidently made under protest—which reflects of the court soon confused the Irishman and so awakened his anger, which steadily increased as he was compelled to repeat the taking of the testimony presented.

"Don't prevaricate!" sternly admonished the judge, as the witness seemingly returned an incoherent answer to one of the questions.

"Prevaricate?" passionately spluttered the C. "Sure, I'm thinkin' you wouldn't be able to help prevaricatin' with three of yer hon'or's front teeth knocked out of yer honor's head!"
